

Hi everyone, as promised we have the latest updated rules in regards to Covid 19 around our Funeral Homes

Feel free to share these around and we can cover the North Island.

Here is below the options we have and are able to provide.

Simplicity Bereavement Services
Simply Cremations TGA Coromandel
Melrose Funeral Home
Simply Cremations Hamilton Auckland

Below with the restrictions, we are having are the 4 options we can make available to you and your families

Option 1 Private Cremation

Your loved one will be uplifted from place of death, returned to our premises. Paperwork will be completed with the next of kin either via email, phone or skype/zoom etc. Once we have the final permissions, we will endeavour to cremate within the 12 hours of death. Ashes depending on where you live will be organised to be returned to you within 24 hours of cremation. The death certificate will be available to families 8-10 working days from cremation.

Option 2 Private Burial

Your loved one will be uplifted from place of death, returned to our premises. Paperwork will be completed with the next of kin either via email, phone or skype/zoom etc. Embalming will take place – this is for two reasons the first being the safety of our staff as generally burial will take up to 24 hours to organise, secondly for your loved one it gives them the dignity to be dressed and laid to rest at their best. Our team will then dress your loved one and casket them. Once urupa or public cemetery is ready, our funeral directors will take your loved one to the cemetery where we will lay them to rest. The death certificate will be available to families 8-10 working days from cremation.

Option 3 Private Service onsite Chapel

Your loved one will be uplifted from place of death, returned to our premises. Paperwork will be completed with the next of kin either via email, phone or skype/zoom etc. Embalming will take place, then dressed and placed in their casket. One of our celebrants will contact the family and go over their wishes for the ceremony. On the day of service this will be live-streamed on "Tribucast" giving whanau all over the world access to the final farewells. Eulogy, Karakia, Mihi's Waiata's can take place through video conferencing, we can load service sheets and slide shows – this service is also available to download. After the service, your loved one can either, be cremated or buried.

Option 4 Delayed Tangihanga/Funeral

Your loved one will be uplifted from place of death, returned to our premises. Paperwork will be completed with the next of kin either via email, phone or skype/zoom etc. Embalming will take place, then we will keep your loved one safe with us, until such times as a full Tangihanga/Funeral can take place with your loved one in their casket.

Two of our Funeral homes one in Hamilton and one in Tauranga have now brought in temporary temperature-controlled facilities to be able to manage our Tupapaku/Loved Ones, by utilizing this facility it enables you to provide a Tangihana/Funeral once the restrictions are lifted.

Nga Mihi, be kind and safe out there xx
